Christopher Moore

UI/UX Designer

About Me

I am a UI/UX Designer focused on delivering valuable and intuitive experiences to the humans that use digital products. Design thinking and human-centered design are at the core of my design principles.

Certifications

I've received certifications by completing courses from the **Interaction Design Foundation**. Some certifications include:

- Agile Methods for UX Design
- Design Thinking: The Ultimate Guide
- Emotional Design - How to Make Products People Will Love
- Interaction Design for Usability

Recent Work Experience

June 2019 - Present

International SOS
Design Lead (UI/UX)

- Established and served as product owner of a design system that unified product experiences in the digital suite. The design system embodies atomic design principles and uses design tokens to synergize a consistent way of working between designers and engineers.
- Served as accessibility lead across the digital product suite ensuring products aligned to WCAG guidelines, established ongoing processes and remediation efforts, while coordinating with sales for client requests.
- Served as a design lead to deliver new products and features alongside product management and technical teams.
- Leveraged design-thinking methods with team members to develop user empathy, ideate solutions, and create prototypes that align with user goals.
